

B5 · BAFS

消費者與市場定位

中英雙語完整筆記 / Complete Bilingual Notes

分析消費者行為，並制定市場細分、目標及定位策略。

消費者行為

Consumer Behaviour

理解個人消費者及企業買家的購買決策流程，分析影響消費者決策的社會文化及心理因素，並比較消費者市場與企業市場。

Understand the decision-making processes of individual consumers and business buyers, analyse socio-cultural and psychological factors affecting consumer decisions, and compare consumer and business markets.

個人消費者決策流程 Decision-making Process for Individual Consumers

消費者行為是研究個人或組織如何選擇、購買、使用及處置商品或服務，以滿足需要和慾望。	Consumer behaviour studies how individuals or organisations select, buy, use and dispose of goods or services to satisfy needs and wants.
個人消費者決策流程通常包括需要確認、資訊搜尋、評估替代方案、購買決定及購後行為五個階段。	The individual consumer decision-making process usually includes need recognition, information search, evaluation of alternatives, purchase decision and post-purchase behaviour.
需要確認可由內在刺激或外在刺激引起，例如口渴、收入增加、廣告、朋友推薦或產品損壞。	Need recognition may be triggered by internal or external stimuli, such as thirst, higher income, advertising, friends' recommendations or product breakdown.
資訊搜尋的程度受產品價格、風險、購買經驗、時間、資訊可得性及顧客參與程度影響。高價或高風險產品通常需要更多搜尋。	The extent of information search is affected by price, risk, buying experience, time, information availability and customer involvement. High-price or high-risk products usually require more search.

評估、購買及購後行為 Evaluation, Purchase and Post-purchase Behaviour

評估替代方案時，消費者會按價格、品質、品牌、功能、服務、便利性及其他評價等標準比較選項。	When evaluating alternatives, consumers compare options using criteria such as price, quality, brand, features, service, convenience and others' reviews.
購買決定可能受他人態度、突發情況、促銷、存貨供應及付款方式影響，因此最初偏好未必等於最終購買。	Purchase decisions may be affected by others' attitudes, unexpected situations, promotions, stock availability and payment methods, so initial preference may not equal final purchase.
購後行為包括滿意、投訴、重複購買、口碑推薦或轉用其他品牌。若實際表現低於期望，消費者可能出現認知失調。	Post-purchase behaviour includes satisfaction, complaints, repeat purchase, word-of-mouth recommendation or switching brands. If actual performance falls below expectations, consumers may experience cognitive dissonance.
企業可透過售後服務、清晰保證、跟進溝通及顧客回饋降低購後不安，並提升忠誠度。	A business can reduce post-purchase anxiety and build loyalty through after-sales service, clear guarantees, follow-up communication and customer feedback.

企業買家決策流程 Decision-making Process for Business Buyers

企業買家通常按較正式和理性的流程採購，因為採購金額較大、風險較高，並涉及多名決策者。	Business buyers usually follow a more formal and rational buying process because purchase amounts are larger, risk is higher and several decision-makers are involved.
企業採購流程包括問題確認、一般需要描述及產品規格、搜尋供應商及邀請建議、選擇供應商及訂單常規規格，以及績效檢討。	The business buying process includes problem recognition, general need description and product specification, supplier search and inviting proposals, supplier selection and order-routine specification, and performance review.

供應商選擇常考慮價格、品質、可靠性、交貨時間、售後支援、付款條件及長期合作關係。	Supplier selection often considers price, quality, reliability, delivery time, after-sales support, payment terms and long-term relationship.
--	---

影響消費者決策的社會文化因素 Socio-cultural Factors Affecting Consumer Decisions

文化影響消費者的價值觀、生活方式及對產品的接受程度，例如節日、飲食習慣及消費態度。	Culture affects consumers' values, lifestyles and acceptance of products, such as festivals, eating habits and consumption attitudes.
社會階層可影響收入、教育、職業、品味及品牌選擇。企業應避免只用收入判斷消費者，還要考慮生活方式和價值觀。	Social class may affect income, education, occupation, taste and brand choice. A business should not judge consumers only by income, but also lifestyle and values.
參考群體是會影響個人態度或行為的群體。直接參考群體如家人、朋友和同事；間接參考群體如名人、網紅或專業人士。	A reference group influences an individual's attitudes or behaviour. Direct reference groups include family, friends and colleagues; indirect groups include celebrities, influencers or professionals.
參考群體對高可見度或具身份象徵的產品影響較大，例如服裝、手機、餐廳或奢侈品。	Reference groups have stronger influence on visible or status-related products, such as clothing, mobile phones, restaurants or luxury goods.

影響消費者決策的心理因素 Psychological Factors Affecting Consumer Decisions

動機是推動消費者採取行動的內在力量。可用馬斯洛需要層次理解消費需求，由生理、安全、社交、自尊到自我實現。	Motivation is the internal force that drives consumers to act. Maslow's hierarchy can explain consumer needs from physiological, safety, social and ego needs to self-actualisation.
個性和自我概念會影響品牌偏好。消費者可能選擇與自身形象或理想形象一致的產品。	Personality and self-concept affect brand preference. Consumers may choose products consistent with their actual or ideal self-image.
知覺是消費者選擇、組織及解釋資訊的過程。即使面對同一廣告，不同消費者也可能有不同理解。	Perception is the process by which consumers select, organise and interpret information. Different consumers may interpret the same advertisement differently.
學習來自經驗和資訊；信念及態度則影響消費者對品牌或產品的長期看法。企業可透過試用、回饋和一致形象塑造態度。	Learning comes from experience and information; beliefs and attitudes affect long-term views of brands or products. A business can shape attitudes through trials, feedback and consistent image.

企業買家類型與市場差異 Types of Business Buyers and Market Differences

主要企業買家包括生產者市場、轉售者市場、政府市場及機構市場。不同買家有不同採購目標和程序。	Major business buyers include producer markets, reseller markets, government markets and institutional markets. Different buyers have different purchasing objectives and procedures.
生產者購買投入作生產用途；轉售者如批發商和零售商購買產品再轉售；政府及機構則常有正式招標或預算限制。	Producers buy inputs for production; resellers such as wholesalers and retailers buy products for resale; governments and institutions often have formal tendering or budget constraints.
消費者市場的需求來自個人或家庭最終消費，買家數目多且購買金額較小；企業市場的需求多屬衍生需求，買家較少但交易金額較大。	Consumer market demand comes from final consumption by individuals or households, with many buyers and smaller purchases; business market demand is often derived demand, with fewer buyers but larger transactions.
企業市場通常較重視理性標準、長期關係、規格及售後服務；消費者市場則較容易受情感、品牌形象及社交因素影響。	Business markets usually emphasise rational criteria, long-term relationships, specifications and after-sales service; consumer markets are more easily affected by emotions, brand image and social factors.

關鍵詞彙 Key Terms

消費者行為 Consumer behaviour

研究消費者如何選擇、購買、使用及處置商品或服務。

The study of how consumers select, buy, use and dispose of goods or services.

需要確認 Need recognition

消費者意識到實際狀況與理想狀況之間有差距。

The stage where consumers recognise a gap between actual and desired states.

評估替代方案 Evaluation of alternatives

按準則比較不同產品或品牌選項。

Comparing different product or brand options using criteria.

購後行為 Post-purchase behaviour

購買後的滿意、投訴、推薦、重購或轉換行為。

Behaviour after purchase, such as satisfaction, complaints, recommendation, repeat purchase or switching.

參考群體 Reference group

會影響個人態度或行為的群體。

A group that influences an individual's attitudes or behaviour.

知覺 Perception

個人選擇、組織及解釋資訊的過程。

The process of selecting, organising and interpreting information.

轉售者 Reseller

購買產品後再售予其他顧客的企業。

A business that buys products for resale to other customers.

消費者決策流程 Consumer decision-making process

消費者由需要確認至購後行為的一連串購買決策步驟。

A series of buying decision steps from need recognition to post-purchase behaviour.

資訊搜尋 Information search

消費者尋找可協助購買決策的資料。

The stage where consumers look for information to support purchase decisions.

購買決定 Purchase decision

決定是否購買、購買哪一品牌、數量、時間及地點。

Deciding whether to buy, which brand, quantity, time and place.

社會文化因素 Socio-cultural factors

文化、社會階層及參考群體等影響消費者決定的外部因素。

External influences such as culture, social class and reference groups affecting consumer decisions.

動機 Motivation

推動消費者採取行動以滿足需要的內在力量。

An internal force that drives consumers to act to satisfy needs.

企業買家 Business buyers

為生產、轉售、政府或機構用途而購買產品或服務的組織。

Organisations buying goods or services for production, resale, government or institutional use.

衍生需求 Derived demand

企業市場需求源自最終消費者對相關商品或服務的需求。

Business market demand derived from final consumer demand for related goods or services.

DSE 作答提示 Exam Tips

消費者決策流程題要按階段寫，並把案例內容放入每一階段，不要只背五個名稱。

For consumer decision-making process questions, write by stages and apply the case to each stage instead of only memorising the five names.

比較消費者市場和企業市場時，可從買家數目、購買金額、決策者數目、理性程度、需求來源和關係長短作答。

When comparing consumer and business markets, discuss buyer numbers, purchase size, number of decision-makers, rationality, source of demand and relationship length.

影響因素題要指出「如何影響」購買決定，例如參考群體會改變品牌態度，而不是只列出因素名稱。

For factor questions, explain how the factor affects the purchase decision, such as reference groups changing brand attitudes, instead of only listing factor names.

快速自測與答案 Quick Check and Answers

Q1. 高價電子產品為何通常需要較多資訊搜尋？

Why do expensive electronic products usually require more information search?

答案：因為價格和購買風險較高，消費者需要比較功能、品質、保養、評價及價格，以降低錯誤購買的機會。

Answer: Because price and purchase risk are higher, consumers compare features, quality, warranty, reviews and prices to reduce the chance of a wrong purchase.

Q2. 參考群體如何影響消費者購買服裝？

How can reference groups affect consumers' clothing purchases?

答案：朋友、同事或網紅可影響消費者對款式和品牌的看法，令消費者選擇能獲得認同或符合群體形象的服裝。

Answer: Friends, colleagues or influencers can affect views on styles and brands, leading consumers to choose clothing that gains acceptance or fits group image.

Q3. 企業市場的衍生需求是甚麼意思？

What does derived demand in business markets mean?

答案：企業對投入品的需求來自最終消費者對成品的需求，例如餐廳對咖啡豆的需求源自顧客對咖啡的需求。

Answer: Demand for business inputs comes from final consumer demand for finished products, such as a restaurant's demand for coffee beans deriving from customers' demand for coffee.

市場細分、目標及定位

Segmentation, Targeting and Positioning

掌握市場細分方法，評估目標市場選擇因素，並運用定位及差異化建立競爭優勢。

Master methods of market segmentation, evaluate factors affecting target market selection, and use positioning and differentiation to build competitive advantage.

市場細分的目的 Purpose of Market Segmentation

市場細分是把整個市場按相似需要、特徵或行為分成較小群體，讓企業更準確地服務不同顧客。

Market segmentation divides a whole market into smaller groups with similar needs, characteristics or behaviours so a business can serve customers more accurately.

有效細分可協助企業選擇目標市場、設計合適市場營銷組合、避免資源浪費及提升顧客滿意。

Effective segmentation helps a business choose target markets, design suitable marketing mixes, avoid wasting resources and improve customer satisfaction.

細分市場應可識別、可量度、規模足夠、可接觸、可盈利，並能讓企業採取不同市場營銷行動。

A segment should be identifiable, measurable, large enough, reachable, profitable and actionable for different marketing actions.

主要市場細分基礎 Major Bases of Market Segmentation

地理細分按地區、氣候、城市規模或居住環境劃分市場，適合需求受地點影響的產品。

Geographic segmentation divides markets by region, climate, city size or living environment and suits products whose demand is affected by location.

人口細分按年齡、性別、收入、教育、職業、家庭生命週期或宗教等因素劃分，是常用且較容易量度的方法。

Demographic segmentation uses factors such as age, gender, income, education, occupation, family life cycle or religion. It is common and relatively easy to measure.

心理細分按生活方式、個性、價值觀及社會階層劃分，可協助企業建立更貼近顧客形象的品牌。

Psychographic segmentation uses lifestyle, personality, values and social class, helping a business build brands closer to customer identity.

行為細分按購買時機、利益追求、使用率、忠誠度及購買準備程度劃分，能直接反映顧客如何使用或回應產品。

Behavioural segmentation uses purchase occasion, benefits sought, usage rate, loyalty and readiness to buy, directly reflecting how customers use or respond to products.

多重基礎細分同時使用多個準則，例如年齡、生活方式及使用率，可更精準，但成本及資料要求較高。

Segmentation by multiple bases uses several criteria at the same time, such as age, lifestyle and usage rate. It is more precise but requires more cost and data.

目標市場選擇 Market Targeting

目標市場選擇是評估各細分市場吸引力，再決定企業要服務哪些市場。企業應考慮市場規模、增長、盈利能力及競爭強度。

Market targeting evaluates the attractiveness of segments and decides which markets to serve. A business should consider segment size, growth, profitability and competition intensity.

企業亦要考慮自身資源、品牌形象、產品能力、分銷能力及長期目標。吸引力高但企業能力不足的市場未必適合進入。

A business should also consider its resources, brand image, product capability, distribution capability and long-term objectives. A highly attractive segment may still be unsuitable if the business lacks capability.

評估市場時要看是否能有效接觸顧客，以及企業是否能以有利成本提供比競爭者更合適的價值。

When evaluating a market, consider whether customers can be reached effectively and whether the business can deliver better value than competitors at an acceptable cost.

三種目標市場策略 Three Target Market Strategies

無差異市場營銷以一套市場營銷組合服務整個市場，成本較低，適合需求相似的大眾市場，但難以滿足不同顧客差異。	Undifferentiated marketing uses one marketing mix for the whole market. It has lower cost and suits mass markets with similar needs, but may fail to meet customer differences.
差異化市場營銷為多個細分市場設計不同市場營銷組合，可增加銷售和覆蓋，但成本、管理複雜度及品牌協調要求較高。	Differentiated marketing designs different marketing mixes for several segments. It may increase sales and coverage but raises cost, management complexity and brand coordination requirements.
集中市場營銷專注一個或少數細分市場，適合資源有限或希望服務利基市場的企業，但過度依賴單一市場風險較高。	Concentrated marketing focuses on one or a few segments. It suits businesses with limited resources or those serving niches, but reliance on a narrow market creates higher risk.
市場利基是較小但有特定需要的市場。利基策略可避開大型競爭者，但市場規模和成長空間可能有限。	A market niche is a smaller market with specific needs. A niche strategy may avoid large competitors, but market size and growth potential may be limited.

定位與競爭優勢 Positioning and Competitive Advantage

定位是企業在目標顧客心目中建立清晰、獨特及有價值形象的過程。定位應回答顧客為何選擇本品牌而非競爭者。	Positioning is the process of creating a clear, distinctive and valuable image in target customers' minds. It should answer why customers choose this brand rather than competitors.
競爭優勢是企業相對競爭者更能吸引顧客的特點，例如較佳品質、較低成本、便利位置、專業服務或強品牌。	Competitive advantage is a feature that makes a business more attractive to customers than competitors, such as better quality, lower cost, convenient location, professional service or strong brand.
成功定位要與目標市場需要一致、容易理解、可信、具差異性，並能在產品、價格、渠道和推廣上保持一致。	Successful positioning should fit target market needs, be easy to understand, credible, distinctive and consistent across product, price, place and promotion.

主要差異化方式 Major Forms of Differentiation

產品差異化可來自功能、設計、品質、耐用度、包裝或創新；服務差異化可來自送貨、安裝、保養、退換及顧客服務。	Product differentiation may come from features, design, quality, durability, packaging or innovation; service differentiation may come from delivery, installation, maintenance, returns and customer service.
人員差異化是透過員工專業、禮貌、可靠及回應速度建立優勢，特別適合服務業。	People differentiation builds advantage through employees' professionalism, courtesy, reliability and responsiveness, especially in service industries.
渠道差異化是透過更方便、更廣泛或更有效率的分銷方式服務顧客，例如網上訂購、快速送貨或多渠道銷售。	Channel differentiation serves customers through more convenient, wider or more efficient distribution, such as online ordering, fast delivery or multi-channel selling.
形象差異化透過品牌名稱、標誌、店鋪設計、包裝、代言及企業聲譽建立獨特感。形象必須與實際產品體驗一致。	Image differentiation builds distinctiveness through brand name, logo, store design, packaging, endorsement and reputation. Image must match actual product experience.

關鍵詞彙 Key Terms

市場細分 Market segmentation

把整個市場分成具有相似需要或特徵的顧客群。

Dividing a whole market into groups of customers with similar needs or characteristics.

地理細分 Geographic segmentation

按地區、氣候或居住環境等地理因素劃分市場。

Dividing a market by geographical factors such as region, climate or living environment.

人口細分 Demographic segmentation

按年齡、性別、收入、教育或職業等人口特徵劃分市場。

Dividing a market by demographic characteristics such as age, gender, income, education or occupation.

心理細分 Psychographic segmentation

按生活方式、個性、價值觀或社會階層劃分市場。

Dividing a market by lifestyle, personality, values or social class.

行為細分 Behavioural segmentation

按購買時機、利益追求、使用率或忠誠度劃分市場。

Dividing a market by purchase occasion, benefits sought, usage rate or loyalty.

多重基礎細分 Segmentation by multiple bases

同時使用多個細分準則劃分市場。

Segmenting a market using several bases at the same time.

目標市場選擇 Market targeting

評估細分市場並決定企業要服務哪些市場。

Evaluating segments and deciding which markets the business will serve.

無差異市場營銷 Undifferentiated marketing

以同一市場營銷組合服務整個市場。

Serving the whole market with one marketing mix.

差異化市場營銷 Differentiated marketing

為多個細分市場設計不同市場營銷組合。

Designing different marketing mixes for several segments.

集中市場營銷 Concentrated marketing

集中服務一個或少數細分市場。

Focusing on one or a few market segments.

市場利基 Market niche

規模較小但需要明確的細分市場。

A smaller segment with specific needs.

定位 Positioning

在目標顧客心目中建立清晰和獨特形象。

Creating a clear and distinctive image in target customers' minds.

競爭優勢 Competitive advantage

讓企業比競爭者更能吸引顧客的優勢。

An advantage that makes a business more attractive to customers than competitors.

產品差異化 Product differentiation

以產品功能、品質、設計或創新建立差異。

Creating differences through product features, quality, design or innovation.

服務差異化 Service differentiation

以服務速度、可靠性、保養或支援建立差異。

Creating differences through service speed, reliability, maintenance or support.

人員差異化 People differentiation

以員工能力、態度及服務質素建立差異。

Creating differences through staff ability, attitude and service quality.

渠道差異化 Channel differentiation

以分銷便利性、覆蓋或效率建立差異。

Creating differences through distribution convenience, coverage or efficiency.

形象差異化 Image differentiation

以品牌、設計、聲譽及符號建立差異。

Creating differences through brand, design, reputation and symbols.

DSE 作答提示 Exam Tips

市場細分應用題要把細分基礎連到案例特徵，例如「收入」屬人口細分，「生活方式」屬心理細分。

For segmentation application questions, connect the base to case features, such as income as demographic segmentation and lifestyle as psychographic segmentation.

選擇目標市場策略時，要同時考慮企業資源和市場差異。資源少通常較適合集中市場營銷。

When choosing a targeting strategy, consider both business resources and market differences. Limited resources usually suit concentrated marketing.

定位題要寫清楚「對誰、提供甚麼價值、與競爭者有何不同」，不要只寫一句宣傳口號。

For positioning questions, state clearly who it targets, what value it offers and how it differs from competitors, not only a slogan.

快速自測與答案 Quick Check and Answers

Q1. 為何企業不應把整個市場視為同一群顧客？

Why should a business not treat the whole market as one group of customers?

答案：不同顧客在需要、收入、生活方式及購買行為上有差異，細分可讓企業更精準設計產品和推廣。

Answer: Customers differ in needs, income, lifestyle and buying behaviour, and segmentation allows more accurate product and promotion design.

Q2. 資源有限的新品牌為何可能選擇集中市場營銷？

Why may a new brand with limited resources choose concentrated marketing?

答案：它可集中資源服務一個較小但明確的市場，較容易建立專門形象和避免與大型品牌全面競爭。

Answer: It can focus resources on a small clear market, making it easier to build a specialised image and avoid full competition with large brands.

Q3. 服務業可如何運用人員差異化？

How can a service business use people differentiation?

答案：可透過培訓員工提升專業知識、禮貌、回應速度及解決問題能力，讓顧客感到服務更可靠。

Answer: It can train staff to improve professional knowledge, courtesy, responsiveness and problem-solving, making customers feel the service is more reliable.
